1965 FORD F250

This mid 60's classic has been lovingly restored and is the most recent addition to our fleet of hearses. The two tone turquoise and gull white paint finish has been preserved; a bold departure from traditional black funeral vehicles.

Power arrives from a Ford 352 FE Series V8 engine creating a distinctive rumble which can be heard before it's seen.

The cabin can carry two family members in elevated comfort to ride as escort while the casket is conveyed on a finely crafted solid rimu timber deck. The hearse features both a unique scissor lift for presentation and a canopy for discrete, all weather travel.
